

PUBLIC NOTICE – TOWN OF HILLSBORO WATER SUPPLY PLAN

PURPOSE OF NOTICE: To seek public comment on the Town of Hillsboro Water Supply Plan submitted to the Department of Environmental Quality (DEQ) under §9 VAC 25-780, et seq, Local and Regional Water Supply Planning regulation.

PUBLIC COMMENT PERIOD: February 7, 2013 to March 11, 2013

DESCRIPTION OF THE WATER SUPPLY PLAN:

The Town of Hillsboro Water Supply Plan ("Plan"), dated October 2010, identifies existing water sources, estimates current and future water demand, and assesses the need for additional sources for future water supply for the Town of Hillsboro. DEQ has issued a tentative determination of compliance to Mr. Roger Vance, Mayor Town of Hillsboro. The following is a brief summary of the Plan:

The Plan successfully outlines the Town of Hillsboro community water system that is supplied by Hill Tom Spring with supplementation from one ground water well. There are ten self supplied users observed with private wells. Build out limits much development. Aging infrastructure is noted. At the time of plan submission, the Town was working with Loudoun County and Emery Garret Groundwater for a more sustainable source.

HOW TO COMMENT: DEQ accepts written comments by e-mail, or postal mail. Written comments should include the name, address and telephone number of the person commenting and be received by DEQ during the comment period. The regional water supply plan is available from the contact below or on the DEQ website at www.deq.virginia.gov. Upon review of written comments submitted in response to this public notice, DEQ will make a final compliance determination decision.
